I-496 Project Noise Ordinance Waiver Request

The following message was prepared in anticipation of receiving approval for a waiver of the noise ordinance described below. If the waiver is not approved, then night and weekend work described will take place during normal working hours as allowed by the City of Lansing's noise ordinance.

Dear Resident or Business Owner:

The Michigan Department of Transportation (MDOT) has requested a waiver of the City of Lansing's noise ordinance, in accordance with the provisions of Chapter 654.11 of the Code of Ordinances, for a roadway rebuild and bridge repair project along I-496. This waiver is being sought in order to lessen the project's impact on motorists, residents and business owners.

Those affected by this project can express their concerns at a public hearing at 7:00 p.m., October 11, 2021 in the City Council Chambers on the Tenth Floor of Lansing City Hall, 124 W. Michigan Ave.

The requested noise ordinance waiver would allow certain construction work from 8 p.m. to 7 a.m. nightly and on weekends from:

- January 2022 to November 2022.
- March 2023 to September 2023.

The project area generally includes I-496, Martin Luther King Jr Boulevard, and St Joseph Street from Lansing Rd to the Grand River.

For more information on the I-496 project, call the MDOT Lansing Transportation Service Center at 517-335-3754. For updates, go to www.Michigan.gov/Drive or www.twitter.com/MDOT_LanJxn.

I-496 Rebuilding Project

Lansing

2022-2023

What Is Being Done?

The Michigan Department of Transportation (MDOT) will invest approximately \$75 million to rebuild I-496 and perform preventive maintenance and repairs on 17 bridges between Lansing Road and the Grand River.

I-496 will be widened to improve operations by connecting the Lansing Road and M-99 ramps with an auxiliary lane. This project will include resurfacing and sidewalk ramp upgrades along the I-496 service drives between M-99 (Martin Luther King Jr. Boulevard) and the Grand River, as those routes will be utilized as detours throughout the project.

Funding for this project is made possible by Gov. Gretchen Whitmer's Rebuilding Michigan program to rebuild the state highways and bridges that are critical to the state's economy and carry the most traffic. The investment strategy is aimed at fixes that result in longer useful lives and improve the condition of the state's infrastructure.

When Will This Be Done?

Work is scheduled to begin in 2022 and be finished in 2023.

How Will Traffic Be Affected?

In 2022, I-496 and associated ramps will be closed and detoured onto the service drives (Malcolm X and St. Joseph streets).

In 2023, at least one lane of I-496 will be open in each direction, with major work occurring between Lansing Road and M-99.

Since this is a design-build project, which means the contractor and their team designs the project and builds it, traffic impacts will be identified as the project goes through design. Ramp and bridge work is expected to impact surface streets as well. Announcements will be made in advance of these traffic impacts once design is completed, with updates throughout work.
