I recently had reason to utilize LFD ems due to an evolving medical issue which rendered me unable to walk. My wife called it in and though I was in fairly exquisite pain they evaluated me and navigated me out of our residence (I would have loved to have one of those cupalex pt transporters when I rode). Not a spectacular event but I would like to commend them on their professionalism and thank them for their care. I know its part of the job but I also know few people say thanks. For id purposes the call was to 1039 Orchard. Please pass my thanks to the crew.
